Point of diversion is to be moved into an existing pump station in Lake Tahoe, to which Edgewood Creek is a natural tributary. The proposed place of use is the service area of the Edgewood Water Company, as described under Application 53658. Metered records confirm that golf course irrigation under Permit 27677 requires less annual duty than 4.5 acre-feet/acre allowed under Edgewood Creek Decree Proof 02420, Certificate 358, which is the base right under Permit 27677. Water changed by this application is excess of irrigation requirement.
